1. The reference document is submitted herewith.

2. In view of the fact that a) [REDACTED] is a staff employee of CIA, b) the so-called robbery might have been conceived and executed as a result of [REDACTED] operational activities, and c) this Division feels that for security reasons he should not make further attempts to collect from the local government (which was not the regime in power at the time the damage was done) otherwise the reason for the so-called robbery might be probed into, your advice as to whether reimbursement can be made by CIA is requested.
